AMERICAN FORK - Clifton Mining Company (OTCBB: CFTN) (Clifton) – “March 2022 Update Report”

Production - Clifton Mining Company has received the January 2022 production report from Desert Hawk Gold Corp. In January, Desert Hawk sold 261 ounces of gold and 286 ounces of silver recovered from the leach pad. They also crushed 13,307 tons of ore, added 137 recoverable ounces to the leach pad, and they estimate that they have 4,140 recoverable ounces of gold still remaining on the leach pad.

Production in the next few months may be limited, due to the delay that Desert Hawk has encountered with its pending expansion permit, which they have been working on for the past couple of years. We're hopeful that they'll receive it sooner than later and we'll keep everyone updated.
